

## **PEOPLE COUNTING SYSTEM FOR FACILITY-WIDE REPORTING**

### **ABSTRACT**

A people counting system including: a first people counting data collection unit  
5 configured to store a first set of people count data; and a second people counting data collection  
unit configured to store a second set of people count data. The first people counting data  
collection unit is configured for bi-directional communication with the second people counting  
data collection unit to facilitate access of people count data from either collection unit. A method  
monitoring a count of people traversing at least first and second passageways is also provided.
